

# Pony Details

Name:

Age:

Breed:

Weight:

Condition:

Work Level:

**My pony is:**

A good doer

A poor doer

Average

**I want my pony to:**

Lose weight

Gain weight

Maintain weight

## Health Issues

Colic prone

Cushing's

Developmental Orthopaedic Disease (DOD)

Hyperkalemic Periodic Paralysis (HYPP)

Insulin Resistance

Laminitis

Tying up (RER)

Tying up (PSSM)

Other:

Intolerances:

Please indicate any specific requirements your horse has (fussy eater, poor hooves, itchy skin etc):

Current diet:

Time turned out:

Time stabled:

Is your pony turned out on grass?

Describe your grazing:

Is your field over grazed?

How much forage (hay, straw etc.) does your pony get each day?

Describe your forage (hay, straw etc.):

Would you like a recipe for just the balancer, or for your whole bucket?

Is there anything specific that you want your recipe to include? Eg linseed, supplements you already use etc.

What do you want to call your recipe?

If you have had your grazing/forage analysed, please forward your reports to us and tick this box.

If you would like a laminated copy of your recipe, please add an additional £3 to your total fee, tick this box, and provide your postage address here:

By ticking this box, you agree to accept full responsibility for feeding your horse and any decisions surrounding it. Sparkle Pony is able to offer you advice, but only you can make the best choice for your horse. Ensure all supplements are mixed thoroughly before feeding.

Your name and email address:

# The Horse Feed Geek Service

Thank you for choosing the Horse Feed Geek service from Sparkle Pony!

This form can be filled out digitally, or you can print it, write on it, and take a photo to send back to us—whichever is easier!

Make sure that you fill this form in as accurately as you can to help us formulate the best recipe for your pony. If there is any additional information you think we should know that isn't covered by the form, let us know when you return the form to us. If there are any feeds or supplements that you want to continue using, make sure to tell us that, too!

Once you've filled in your form, please return it to us via [mail@sparkle-pony.co.uk](mailto:mail@sparkle-pony.co.uk) and make a payment of £20.00 via PayPal, we will work our magic!

You will receive a recipe sheet which makes approximately 30 days supply of balancer for your pony. It states the scoops of each ingredient, which you then mix up to make your balancer for the month. I advise making one month at a time in case there is anything that you need to adjust or add.

Introduce your new balancer slowly, and make sure that you seek advice from your vet before making dietary changes. As the supplements are powders, fussy horses may need a little tweaking to make the formula more palatable. I often use cinnamon powder to make supplements more appealing, and the carrier feed that I use is Spillers Ready Fibre Mash, which is apple scented. My ponies love it!

Most horses are kept differently in the winter to the summer, so it may be a good idea to get a formula for each to ensure proper nutrition. For example, my ponies live out all year round, but they are fed hay in winter. The change in forage and grass quality means that they need extra vitamin e, and a few other little adjustments.

Happy mixing!

## *Feed What You Need*
